## RHODES

A wonderful climb on a minor road after a left hand turn after about 500m up to the church of Agios. Make sure that you stop and take in the view before continuing on to the view of the zoo and its animals, plus then the screams of joy from "The Water Park." Once you get back down to the main road, turn left and continue about a km before taking a right and finish with about 1km running along the beach. A mixture of asphalt, trail, and beach running

DISTANCE: 7,2 km

TOTAL CLIMB: 192 m

HIGHEST POINT: 104 m
